

## Introduction to TeeTimeHelper

The Diablo Creek Seniors Golf Club uses an app called TeeTimeHelper for scheduling Monday tee times.

<https://www.teetimehelper.com/>

This is an extremely simple app to use. It sends invitations and notifications to players and they can go to the app on their phone or computer and choose the tee time they want, assuming it is still available. They can choose another partner too, to set up a twosome. You will need to download and install the app on your phone (super simple) from the Apple App Store or Google Play. Just search for TeeTimeHelper.

Here is a quick tutorial blog on how to use the app: <https://blog.teetimehelper.com/2025/07/youre-invited-how-to-rsvp-to.html>

As a Member of the DCSGC you probably already have received a notification or invitation to a TeeTimeHelper Event. After reviewing the tutorial above, go ahead and try RSVP'ing Yes and No, adding partners and Guests and play around with it. I've attached a "how to" doc covering a few of the features. The invitation for a Monday Event is enabled and sent out on the previous Tuesday at 7 PM.

If you have any questions please don't hesitate to contact Mike Toth, Frank Moschiano or Ron Schaefer.
